

INCLINED PRONE FREEDOM

Independence! Freedom! Heard somewhere right?

Indeed! These words once made our eyes bright.

Longing for freebie -

We accidentally indicated a treaty, To take lead, on our species.

Our race has been engraved with erroneous deeds,

In order to avert our veracious leads.

Literal freedom shouldn't be given,

Oftentimes it must be taken.

"Come back to senses nerd"

This must be our commanding word.

Don't! Don't be doomed out by further policy

In fact; Be a Queen Bee of your own colony.

Give credits only after a query,

Cast doubts on political theory.

Love for 'Our Nation' should be endless!

Aspiration for 'Our Mother India' must be elatedness!

And Never Ever Consider us Defenceless!
